

# Poultry Disinfectant

## 1L RTU

*Poultry Disinfectant is presented as a handy ready to use spray and has the following properties:*

- Disinfectant suitable for poultry housing and equipment
- Breaks down dirt and organic matter
- Disrupts mite parasites environment
- Odour neutraliser
- Does not contain any poisons

### Instructions for disinfecting your coop.

1. Remove all litter and manure by dry cleaning with a brush.
2. Spray interior areas, perches, nest boxes and all equipment with Poultry Disinfectant solution, paying particular attention to joints and crevices. Poultry Disinfectant will help eliminate red mite.
3. Replace bedding.
4. Wash off feeders and drinkers after spraying.
5. Repeat the above every two weeks or as necessary.

The storage, handling and transportation of this product should be performed wearing suitable protective clothing. Wear a mask in a contained space. Avoid contact with skin and eyes.

Store upright in a cool place and keep out of the reach of children.
