Instruction for Use

- Super-absorbent
- Reduces ammonia and other noxious gases
- Absorbs virtually its own weight
- Inhibits the growth of bacteria
- Contains BioVX a DEFRA approved disinfectant
- Extends bedding life
- Environmentally friendly
- Non-hazardous

Chicken Vet Dri Bed is one of the most absorbent powders on the market. Kind to livestock and kills bacteria.

General Properties

A powder ideal for use in all livestock housing and is suitable for use with animals and birds of all ages. Chicken Vet Dri Bed has unique odour control formulation which eliminates strong ammonia smells. Chicken Vet Dri Bed is also excellent at absorbing water, this benefit is enhanced due to Chicken Vet Dri Bed containing a DEFRA approved disinfectant, which helps control bacteria and viral challenges. By drying out the litter, Chicken Vet Dri Bed reduces the spread of Necrotic Enteritis and salmonella, amongst many other infections and generally reduces cross infections.

Apply 50gm/m² to animal bedding and also spread under drinker lines and troughs.
