

BioShield 5 Litre

Broad spectrum and high foaming disinfectant

- High foaming properties
- Potent prolonged effect
- Effective in the presence of organic matter
- Effective against bacteria, viruses, moulds and fungi
- Effective disinfection of all classes of livestock housing
- DEFRA Approved

General purpose application 1:100	Foot and Mouth Disease 1:85
Swine Vesicular Disease 1:225	Disease of Poultry Orders 1:155

BioShield is broad spectrum and effective against viruses, bacteria, mycoplasma and fungi. It is active in the presence of organic matter and can be used effectively in both hard and soft water.

Instructions for use

1. After washing and cleaning thoroughly, apply at the required dilution rate via a power washer and foaming lance, or other foam generating equipment, covering all surfaces with an even layer of foam.
2. Avoid excess application on vertical surfaces as this will result in downward drift and reduced contact time.
3. Alternatively, use at the required dilution rate via a power washer set at low pressure (1000 psi) with a wide-angled jet.

Applications

Disinfection of livestock buildings, foot and vehicles baths.

Suitable for broilers, broiler breeders, sheep pens, calf pens and general purpose disinfection.

Usage Guidelines

Disinfection for as house size of 10,000 ft^2 /1000 m^2 - 6 litres in 600 litres of clean water.
Foot and wheel dips 1:155.

Pack Size

Available in 5 litres.

Storage

Store in a cool place, keep lid tightly closed.

Shelf Life

2 years from date of manufacture.
